

Nursery

Some ideas for snow activities if the nursery isn't able to open:

- Go on a Winter Walk and look at bare branches on trees/hedges. Describe the things which are covered with snow.
- Make ice in a variety of pots and trays.
- Press leaves, twigs and stones into snow to make patterns.
- Use rakes or sticks to make patterns in the snow.
- Make sculptures of people, faces, animals or vehicles in the snow.
- Put snow in an empty container and add small world items.
- Take buckets and make snow sandcastles- decorate with objects you find.
- Look at soles of boots and shoes- make tracks in the snow.
- Use wheeled toys to make tracks in the snow.
- Leave a tray of water outside overnight- make it into a miniature ice skating rink with small world people.
- Make a collection of winter pictures- cards, photos, calendars, post cards- discuss colours etc
- Draw snowy pictures.
